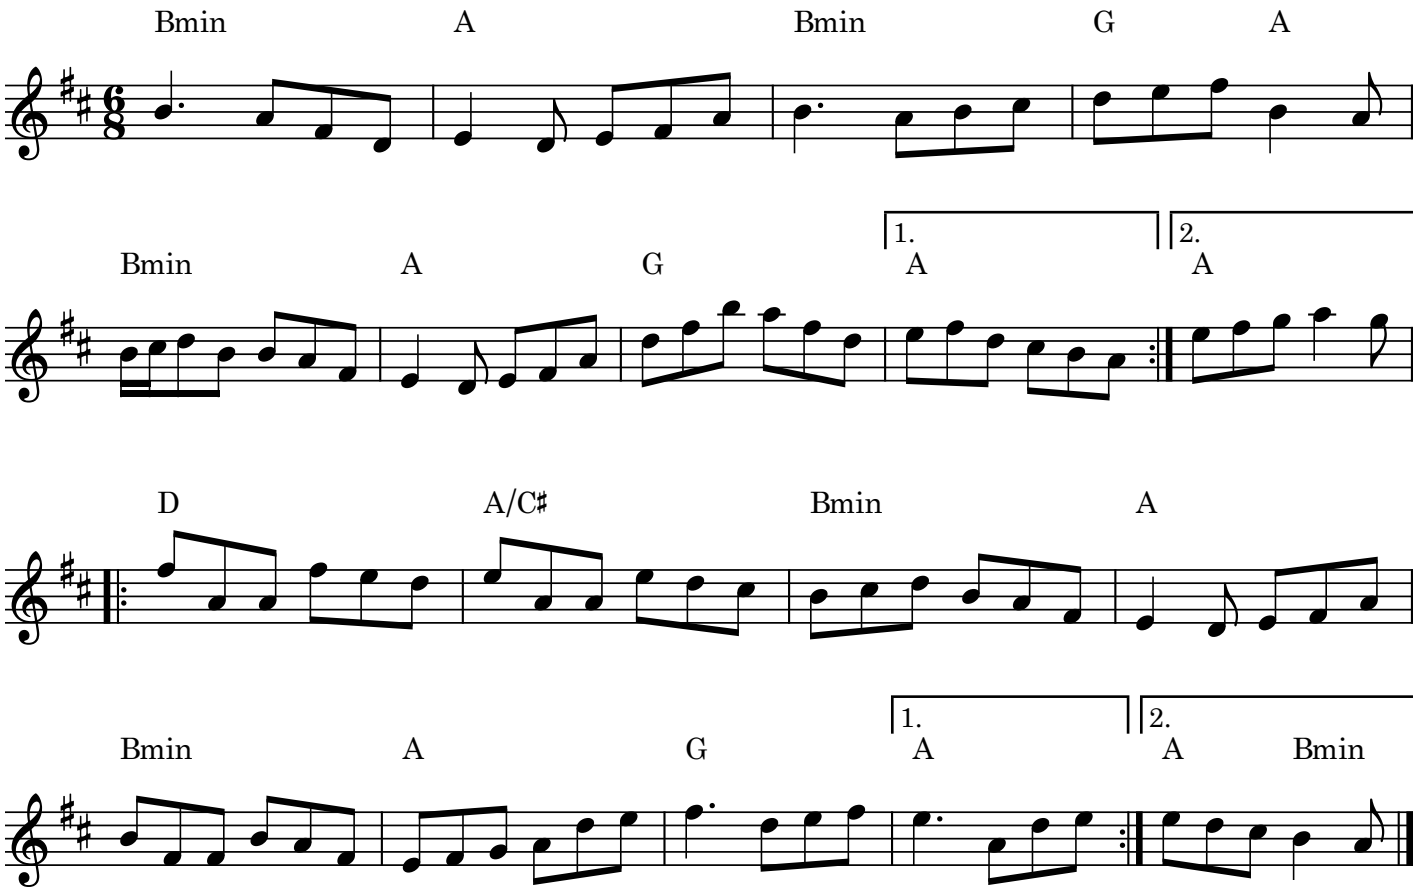
Original Tunes from the Heatons

The Lopsided Swan

Jig - B Minor

for a spectacular Origami fail

Shannon Heaton



On a 2025 visit to Japan, I played a lot of great music with friends, ate amazing food.. and our family tried our hand at Origami. We picked up some nice kami (folding paper) and attempted to make a jumping frog, a crane... and a swan. None of us was particularly skilled at the practice, but I was decidedly the least competent. I wrote this tune for my one of my hilarious, pitiful creations.
